European Academy reference profile

EUROPEAN ACADEMY REFERENCE PROFILE

The attributes that matter most for a striker — measured against the Pro Academy expectation for U11-U12.

POSITION · AGE

STRIKER · U11-U12

PROFILE IS FORMING.

ATTRIBUTE	IMPORTANCE	PRO RANGE	PLAYER	STATE
Shooting Pro academy strikers finish chances — the most prized attribute at every level.		7-8.5		
Off Ball Movement Creating separation in the box is half the goal-scoring battle.		7-8.5		
Timing Of Runs Late, perfectly-timed runs beat the offside line and find space.		7-8.5		
First Touch Receiving under pressure with one touch to set up the shot.		7-8.5		
Body Control Holding the ball up with back to goal — every #9 needs this.		7-8.5		
Acceleration Beating the last line and creating goal-side separation.		7-8.5		
Courage In Duels Brave in the box — strikers get fouled and have to play through it.		7-8.5		

Reference profile is curated from European youth-academy development frameworks. It compares the player's actual scores against what scouts at Pro Academy level typically look for.

Scout view — how a scout might assess this player

KEY STRENGTHS

- Not observable from this footage.

AREAS OF CONCERN

- Not observable from this footage.

DEVELOPMENT PRIORITIES

- Submit clear footage where the player is easily identifiable for a proper assessment.
- Focus on fundamental technical skills appropriate for an 11-year-old striker.
- Develop intelligent movement in and around the penalty box.
- Practice finishing with both feet from various angles and distances.

Next competitive level	Cannot be determined from the footage.
Positional suitability	Listed as a Striker, but this could not be confirmed from the footage.

This is an independent development analysis and does not guarantee selection or advancement opportunities.

Potential assessment

Current level	Cannot be determined.
Development potential	Potential is impossible to assess without clear video evidence of the player in a game situation.
Recommended next step	Provide new footage where the specified player is clearly visible throughout multiple game actions.
3-month focus	Based on his age and position, the focus should be on ball mastery and developing a positive 'first touch' that sets up his next action.

Personal training plan

FIVE FOCUSED EXERCISES

0	Wall Passing & Receiving · 15 min
1	Pass the ball against a wall with one touch, alternating feet. Focus on a clean first touch to control the rebound and prepare the next pass.
0	Cone Weaving Dribble · 15 min
2	Dribble through a line of cones using both the inside and outside of both feet. Keep the ball close and your head up.
0	1v1 to Goal · 20 min
3	Start with back to a defender, receive a pass, turn, and try to beat the defender to get a shot on goal. This develops turning, shielding, and finishing under pressure.
0	Finishing Circuit · 20 min
4	Set up stations for different types of shots: one-touch finish from a cross, a shot after a short dribble, and a volley. Focus on striking technique.
0	Ladders & Hurdles · 10 min
5	Perform agility drills using a speed ladder and mini hurdles. Focus on quick feet, coordination, and explosive movements.

Weekly focus	This week's focus should be on the quality of the first touch. Every time the ball arrives, the goal is to have it perfectly under control and ready for the next action—be it a pass, dribble, or shot—within a single touch. This is the foundation for everything a striker does.
30-day plan	Over the next month, expand from first touch to combination play. Work on receiving the ball, playing a quick one-two with a teammate or coach, and moving into space to receive the return pass. This will improve awareness and the speed of decision-making in tight areas.
90-day plan	By the end of three months, the aim is to translate technical skills into goal-scoring situations. The focus will be on movement inside the box: making runs to the near post, far post, and checking back into space. The goal is to consistently arrive in dangerous positions to receive the ball and finish.

Video moments — frame-stamped evidence

EVERY OBSERVATION IS ANCHORED TO THE EXACT FRAME IT WAS SEEN AT

00:00

The player matching the required visual fingerprint (brown jersey, dark green shorts) is not visible in the clip. The teams on the field are in all-white and blue/yellow.

Final summary

This report cannot provide a meaningful evaluation as the target player was not visible in the video. A proper assessment requires new footage where the player can be clearly identified and tracked throughout the game. The provided training plan is a general guide for a striker of this age but must be adapted once his specific strengths and weaknesses can be observed.

How ScoutMePlay scores — methodology

Every report is built around the same four player-development pillars used across European Category-1 youth academies. This appendix explains how we evaluate, benchmark, and tier players — so any coach or scout receiving this PDF can understand the numbers.

ALIGNED WITH UEFA YOUTH-DEVELOPMENT PILLARS · NOT CERTIFIED OR ENDORSED BY UEFA

THE FOUR PILLARS

TECHNICAL	Skills with the ball — first touch, ball control, passing, dribbling, shooting, weak-foot use, 1v1.
TACTICAL	Decisions without the ball — positioning, off-ball movement, scanning, decision-making, timing of runs, game understanding.
PHYSICAL	Athletic foundation — acceleration, speed, balance, agility, intensity (90-minute), body control.
MENTAL	Habits and character — confidence, work rate, courage in duels, response to mistakes, competitive mindset, focus.

THE FOUR-TIER LADDER

Each sub-skill is scored 1-10 and placed into one of four tiers, calibrated to the player's age and position.

ELITE ACADEMY	Top-end Category-1 academies (La Masia, Clairefontaine, Cobham-level). Top 1-3% of an age group.
PRO ACADEMY	Strong regional or national pro-club academies. Trial-ready for serious competitive pathways. Top 10-15%.
STRONG CLUB	Higher-level competitive club football, talent centres, district selections. Top 30%.
STANDARD CLUB	Mainstream club football where most players develop. Baseline for organised youth football.

AGE BRACKETS

A 7/10 for first touch at U11 is not the same as a 7/10 at U17. Every score is calibrated against the typical milestone for the age bracket and position.

U11	Foundation — coordination, ball mastery, basic decision-making.
U13	Build phase — scanning habits, positional discipline, both-footed development.

U15	Performance phase — match impact, pressing intensity, tactical role clarity.
U17	Specialisation — position-specific excellence, physical maturity, mental resilience.
U19	Pre-professional — match management, leadership, consistency across 90 minutes.
U21	Professional threshold — high-performance habits, durability, decision quality at speed.

WHAT WE DON'T CLAIM

- We are not UEFA-certified. We align with the same pillars used in UEFA elite-youth coaching education — that's it.
- We don't publish childhood scores of professional players. Stylistic archetype comparisons describe style, not factual youth data.
- We don't guarantee selection, signing, or progression to any club or academy.
- Set-pieces from open play, off-camera defensive work, and goalkeeping moments are not assessable from outfield clips.
