TOP STRENGTHS

- ◆ Dribbling at high speed with close control.
- ◆ Explosive acceleration to beat defenders.
- ◆ Excellent decision-making and vision in the final third.

DEVELOPMENT PRIORITIES

- ◆ Developing weak foot proficiency for passing and shooting.
- ◆ Improving off-the-ball movement to create space for himself and others.

Executive summary

This player is a dynamic and direct attacker who excels in transition. In the observed sequence, he demonstrated the confidence and ability to receive the ball under pressure, turn, and drive directly at the heart of the defense. His key strength is combining pace with close control, allowing him to carry the ball over significant distances. He culminates his run with excellent vision and decision-making, delivering a perfectly weighted assist to create a certain goal. This single action showcases a player with a clear end-product and the individual quality to change a game.

- 90-minute intensity & physical peaks (reserved for U15+)
- Pro role discipline (reserved for U15+)

STYLISTIC ARCHETYPE

Kvaratskhelia-type flair

MATCH STRENGTH

7.8 / 10

Flair dribbler with end product — skill moves and finishes in equal measure.

· FLAIR DRIBBLER · SKILLS + END PRODUCT · GEORGIAN MAGIC

PERSONALIZED COMPARISON · AGE-ANCHORED

Almin13, an 11-year-old winger, shows promising attributes, particularly his Dribbling (8/10) and One V One skills (8/10). This aligns with the early stages of a player like Kvaratskhelia, who was developing in the Dinamo Tbilisi academy from age 12. Interestingly, the closest senior pro by data similarity is Claudiosa Paes (São Paulo). Developing his strong ball control (8/10) will be key to his progression. His pathway will depend on continued hard work and focused development.

WHAT KVARATSKHELIA WAS DOING AT AGE 11-12

Dinamo Tbilisi academy from age 12.

Stylistic comparisons describe how this player plays today — not their ceiling, and not the named professional's youth data.

THE 4-LENS COMPARISON

How this player resembles 4 different professionals

Each lens picks the closest pro on a different dimension: how he plays, his physical build, his on-pitch role, the career path he's on.

LENS	MATCHED PRO	WHY	SCORE
STYLE TWIN	Kvaratskhelia-type flair PSG · Ligue 1	Plays in the same mould — same signature attributes drive both players.	8.1 /10

BUILD TWIN	Vinícius-type 1v1 dribbler Real Madrid · La Liga	Same physical build — Compact · balanced, right-footed.	10.0 /10
ROLE TWIN	Salah-type cutting inside Liverpool · Premier League	Same on-pitch role — inverted winger.	10.0 /10
CAREER-PATH TWIN	Rafael Leão-type AC Milan · Serie A	Likely development arc — currently sitting at pro academy.	10.0 /10

Technical analysis

First Touch

7 / 10

His first touch is positive and purposeful. When the ball arrives, he takes it on the half-turn, instantly setting him up to drive forward and away from the nearest defender. This single touch eliminated the immediate pressure and launched the entire attacking move.

WHY THIS SCORE

The score of 7 reflects a very good, functional first touch that achieved its objective perfectly. It was not an elite, cushioned touch under extreme pressure, but it was the catalyst for a goal-creating action, showing solid fundamentals.

STANDARD CLUB	STRONG CLUB	PRO ACADEMY	ELITE ACADEMY
3-5	5-6.5	6.5-8	8-9

› Currently sitting at pro_academy for an 11-year-old Winger. To reach elite_academy, demonstrate this same quality consistently with both feet under greater pressure.

Ball Control

8 / 10

He maintains excellent control of the ball while dribbling at high speed. The ball is never more than a yard from his feet, allowing him to make quick decisions and keep it away from potential tacklers. His control is tight and consistent throughout his forward run.

WHY THIS SCORE

This is an 8 because he showed complete command of the ball while running at nearly top speed over 30 yards. He did not have to slow down to adjust his touch, indicating a natural and well-practiced ability. It's a clear strength.

STANDARD CLUB	STRONG CLUB	PRO ACADEMY	ELITE ACADEMY
3-5	5-6.5	6.5-8	8-9

› Currently sitting at pro_academy for an 11-year-old Winger. To reach elite_academy, maintain this level of control while navigating multiple, coordinated defenders.

Dribbling

8 / 10

He is a purposeful and effective dribbler. He doesn't use extravagant tricks but instead relies on a quick touch and acceleration to beat his man. His dribble is always forward-thinking, aimed at getting into dangerous areas as quickly as possible.

WHY THIS SCORE

The score is 8 because the dribble was not just successful, it was decisive. He took a player out of the game and single-handedly created a goalscoring chance through his run. This shows game-changing dribbling ability.

STANDARD CLUB	STRONG CLUB	PRO ACADEMY	ELITE ACADEMY
3-5	5-6.5	6.5-8	8-9

› Currently sitting at pro_academy for an 11-year-old Winger. To reach elite_academy, add more variety in tight spaces to his direct, powerful running.

Passing

8 / 10

His passing vision and execution are excellent. After a long dribble, he had the composure to look up, identify a teammate's run, and play a perfectly weighted through-ball. The pass was precise, leading his teammate into the shot and making the finish simple.

WHY THIS SCORE

A score of 8 is warranted for this single action due to its quality and importance. It was the correct pass, played with the correct weight, at the correct time, under pressure at the end of a run. It demonstrated high-level creative passing.

STANDARD CLUB	STRONG CLUB	PRO ACADEMY	ELITE ACADEMY
3-5	5-6.5	6.5-8	8-9

› Currently sitting at pro_academy for an 11-year-old Winger. To reach elite_academy, demonstrate this passing quality over various ranges and with both feet.

Shooting

▲ NEED MORE FOOTAGE

No shooting situations were visible in the footage.

Weak Foot

▲ NEED MORE FOOTAGE

All key actions were performed with the player's right foot, offering no chance to assess his left.

One V One

8 / 10

He is extremely positive in 1v1 situations. He attacks the defender with speed and commits them before knocking the ball past and accelerating away. His approach is simple but highly effective, leaving the defender beaten decisively.

WHY THIS SCORE

This earns an 8 because he didn't just get past the defender, he eliminated them from the play completely and instantly created a numerical advantage for his team. This is the definition of an effective take-on.

STANDARD CLUB	STRONG CLUB	PRO ACADEMY	ELITE ACADEMY
3-5	5-6.5	6.5-8	8-9

› Currently sitting at pro_academy for an 11-year-old Winger. To reach elite_academy, show the ability to beat defenders in tight spaces as well as in open field.

Tactical analysis

Positioning

7 / 10

He takes up a smart central position to receive the ball, which allows him to attack the goal directly. This shows an understanding of how to find space where he can be most effective. By starting centrally, he gives himself multiple options to attack.

WHY THIS SCORE

The score is 7 because his position was intelligent and directly led to the goal-creating action. It was not just a default position, but one that maximized his threat. More evidence is needed to confirm this is a consistent trait.

STANDARD CLUB	STRONG CLUB	PRO ACADEMY	ELITE ACADEMY
3-5	5-6.5	6.5-8	8-9

› Currently sitting at strong_club for an 11-year-old Winger. To reach pro_academy, demonstrate this awareness in different phases of play, both offensively and defensively.

Off Ball Movement

▲ NEED MORE FOOTAGE

The camera followed the player while he had possession, so his movement without the ball was not shown.

Scanning

▲ NEED MORE FOOTAGE

Due to the camera distance and player's speed, it is not possible to determine if he scanned his surroundings before or during the run.

Decision Making

8 / 10

He demonstrates excellent decision-making in the final third. After his long run, he correctly assessed that passing was the best option and chose the right teammate. This unselfish and intelligent play turned a good run into a certain goal.

WHY THIS SCORE

This scores an 8 because it was a mature, high-level decision. Many young players would have shot from that position. He made the unselfish, correct footballing play that guaranteed a goal, showing a high level of game intelligence.

STANDARD CLUB	STRONG CLUB	PRO ACADEMY	ELITE ACADEMY
3-5	5-6.5	6.5-8	8-9

› Currently sitting at pro_academy for an 11-year-old Winger. To reach elite_academy, consistently make these high-quality decisions over the course of a full match.

Timing Of Runs

▲ NEED MORE FOOTAGE

His run was with the ball at his feet, so his off-ball running could not be assessed.

Game Understanding

7 / 10

He understands how to exploit space in transition. He immediately recognized the opportunity to drive at a disorganized defense and did so with maximum effect. His understanding of when to carry the ball and when to release it is a significant strength.

WHY THIS SCORE

A score of 7 is appropriate because he correctly read a single, specific game situation and executed the perfect response. To score higher, this understanding needs to be demonstrated across various scenarios, including defensive and positional phases.

STANDARD CLUB	STRONG CLUB	PRO ACADEMY	ELITE ACADEMY
3-5	5-6.5	6.5-8	8-9

› Currently sitting at strong_club for an 11-year-old Winger. To reach pro_academy, apply this attacking intelligence to off-the-ball movement and defensive responsibilities.

Physical analysis

Acceleration

8 / 10

He possesses explosive acceleration. The burst of speed he shows after his first touch is what creates the separation from his marker. He goes from a standing start to top speed very quickly, which is a major asset for a winger.

WHY THIS SCORE

This is an 8 because his acceleration is a true weapon. It's not just good; it's the attribute that allowed him to break the defensive line and initiate the entire attack. It's a standout physical quality.

STANDARD CLUB	STRONG CLUB	PRO ACADEMY	ELITE ACADEMY
3-5	5-6.5	6.5-8	8-9

› Currently sitting at pro_academy for an 11-year-old Winger. To reach elite_academy, integrate this acceleration into off-the-ball runs to become an even greater threat.

Speed

7 / 10

He has very good top-end speed. Once he gets into his stride, he is able to maintain a high pace over distance, making him a serious threat on the counter-attack. He covered 30 yards quickly without any defender catching him.

WHY THIS SCORE

The score is 7 because he showed impressive speed while in possession. He was clearly faster than the opponents in his immediate vicinity. We did not see him in an all-out sprint, which prevents a higher score.

STANDARD CLUB	STRONG CLUB	PRO ACADEMY	ELITE ACADEMY
3-5	5-6.5	6.5-8	8-9

› Currently sitting at pro_academy for an 11-year-old Winger. To reach elite_academy, continue developing this speed and learn to use it for recovery runs defensively.

Balance

7 / 10

His balance is strong, especially when running with the ball. He never looks unstable or off-kilter, even at top speed. This allows him to keep control of the ball and prepare for his final action without needing to slow down.

WHY THIS SCORE

He scores a 7 for balance because it is a solid, functional attribute that supports his main strengths of dribbling and speed. He was not put under any heavy physical challenges, which is needed to assess elite balance.

STANDARD CLUB	STRONG CLUB	PRO ACADEMY	ELITE ACADEMY
3-5	5-6.5	6.5-8	8-9

› Currently sitting at strong_club for an 11-year-old Winger. To reach pro_academy, develop core strength to maintain this balance when under direct physical contact from defenders.

Agility

7 / 10

He displays good agility and coordination. The quick turn he executes at the start of the move demonstrates his ability to change direction effectively while maintaining control of the ball. This allows him to evade challenges in tight areas.

WHY THIS SCORE

A 7 is a fair score as he showed one instance of high-quality agility that was crucial to the play. More evidence of him twisting and turning in congested areas is required for a higher assessment.

STANDARD CLUB	STRONG CLUB	PRO ACADEMY	ELITE ACADEMY
3-5	5-6.5	6.5-8	8-9

› Currently sitting at strong_club for an 11-year-old Winger. To reach pro_academy, incorporate agility ladder and cone drills to improve footwork and changes of direction at speed.

Intensity

▲ NEED MORE FOOTAGE

A single attacking run does not provide evidence of overall match intensity or defensive pressing.

He has good control over his body mechanics when running. His arms and legs are synchronized, and he runs efficiently, which helps him maintain both speed and ball control. He is a coordinated and fluid athlete.

WHY THIS SCORE

This score of 7 reflects that he is a well-coordinated runner, which is fundamental to his playing style. There were no situations that tested his body control under awkward challenges or when jumping, which are needed for a top-tier score.

STANDARD CLUB	STRONG CLUB	PRO ACADEMY	ELITE ACADEMY
3-5	5-6.5	6.5-8	8-9

› Currently sitting at strong_club for an 11-year-old Winger. To reach pro_academy, focus on strength and conditioning work to enhance control during physical contact.

Mentality analysis

Confidence

8 / 10

He plays with very high confidence. He was not afraid to take responsibility, receive the ball in a crowded area, and attack the opposition directly. His willingness to take a player on and drive forward shows he believes in his own ability.

WHY THIS SCORE

An 8 is given because he demanded the ball and immediately sought to be the protagonist of the attack. This positivity and self-belief at his age are hallmarks of a player with a strong mentality. It's a clear, observable strength.

STANDARD CLUB	STRONG CLUB	PRO ACADEMY	ELITE ACADEMY
3-5	5-6.5	6.5-8	8-9

› Currently sitting at pro_academy for an 11-year-old Winger. To reach elite_academy, maintain this confidence when plays don't come off and continue to demand the ball.

Work Rate

▲ NEED MORE FOOTAGE

The footage only shows a brief attacking moment, which is insufficient to evaluate overall work rate.

Courage In Duels

▲ NEED MORE FOOTAGE

The player was not involved in any physical challenges or tackles.

Response To Mistakes

▲ NEED MORE FOOTAGE

The player executed his actions successfully, so there was no mistake to respond to.

Competitive Mindset

▲ NEED MORE FOOTAGE

A single attacking run does not provide enough context to assess his competitive spirit over a match.

Focus

7 / 10

He showed excellent focus throughout the attacking sequence. He remained concentrated on his task while dribbling at speed and had the clarity of mind at the crucial moment to select and execute the final pass perfectly.

WHY THIS SCORE

He scores a 7 for focus because he flawlessly executed a multi-stage, high-speed action. This requires significant concentration. A higher score would require seeing him maintain this focus over longer periods and during defensive phases.

STANDARD CLUB	STRONG CLUB	PRO ACADEMY	ELITE ACADEMY
3-5	5-6.5	6.5-8	8-9

› Currently sitting at strong_club for an 11-year-old Winger. To reach pro_academy, demonstrate this focus when not involved in the play, by maintaining defensive shape and anticipating opportunities.

European Academy reference profile

EUROPEAN ACADEMY REFERENCE PROFILE

The attributes that matter most for a winger — measured against the Pro Academy expectation for U11-U12.

POSITION · AGE

WINGER · U11-U12

PROFILE IS FORMING.

ATTRIBUTE	IMPORTANCE	PRO RANGE	PLAYER	STATE
Acceleration Wingers win primarily through first-step explosiveness.		6.5-8	8 /10	▼ BELOW
Dribbling 1v1 beats unlock the cross/shot — the defining skill of the role.		6.5-8	8 /10	▼ BELOW
One V One Isolating and beating the full-back is the winger's central test.		6.5-8	8 /10	▼ BELOW
Speed Top-end speed to threaten in behind on diagonal balls.		6.5-8	7 /10	▼ BELOW
Passing Final ball quality (cross / cut-back / cutback) defines chance creation.		6.5-8	8 /10	▼ BELOW
Shooting Inverted wingers especially need to finish from the half-space.		7-8.5	—	—
Weak Foot Switchable wingers (play either flank) need both feet.		7-8.5	—	—

Reference profile is curated from European youth-academy development frameworks. It compares the player's actual scores against what scouts at Pro Academy level typically look for.

Scout view — how a scout might assess this player

KEY STRENGTHS

- Dribbling at high speed with close control.
- Explosive acceleration to beat defenders.
- Excellent decision-making and vision in the final third.
- Confidence to take players on and be direct.
- Executing a precise, goal-creating pass under pressure.

AREAS OF CONCERN

- Evaluation is based on a single attacking action.
- No evidence of defensive contribution or work rate.
- Weak foot usage is completely unknown.

DEVELOPMENT PRIORITIES

- Developing weak foot proficiency for passing and shooting.
- Improving off-the-ball movement to create space for himself and others.
- Learning defensive responsibilities for a winger, such as tracking back.
- Adding finishing to his game to become a dual-threat creator and scorer.

Next competitive level	A professional academy or a top-tier regional club.
Positional suitability	His attributes are perfectly suited for a Winger role, either on the left or right. He also shows the central dribbling ability and passing range to play as an Attacking Midfielder.

This is an independent development analysis and does not guarantee selection or advancement opportunities.

Potential assessment

Current level	A standout player at a strong club level, showing the key attributes to succeed in a professional academy environment.
Development potential	The player has very high potential. His combination of pace, dribbling, and end-product is rare at this age. With dedicated coaching on the tactical and all-round aspects of his game, he can develop into an elite attacking player.
Recommended next step	Seek a trial at the highest level of club available, such as a local professional team's U12 academy, to be challenged weekly by and against other top players.
3-month focus	The main focus for the next 90 days should be two-fold: 1) Deliberate practice using his weak foot in every training session, and 2) improving his goal-scoring by practicing finishing from different angles after a dribble.

Personal training plan

FIVE FOCUSED EXERCISES

- 01

1v1 Attacking Channels · 15 min
Set up a 15-yard channel. The player starts with the ball at one end and has to beat a defender to dribble over the opposite end-line. Focus on using acceleration after the move.
- 02

Weak Foot Passing Gates · 10 min
Set up small cone gates around a 20x20 yard box. The player dribbles inside the area and must only pass to a partner through the gates using their weak foot.
- 03

Dribble and Finish · 15 min
Player starts 30 yards from goal, dribbles at speed past a mannequin, and must finish with a shot within two touches. Alternate between right and left foot finishes.
- 04

Agility with Ball · 10 min
Dribble through a series of cones or an agility ladder, focusing on keeping the ball close while making rapid changes of direction. This improves balance and close control.
- 05

2v1 to Goal · 15 min
Start an attack with a teammate against one defender. The player must decide whether to dribble, shoot, or pass to create the best scoring chance. This works on decision-making.

Weekly focus

Each week, dedicate at least two sessions to improving weak-foot ball mastery and two sessions on finishing drills. The goal is to make using the left foot for simple passes and shots feel natural, and to become more clinical in front of goal after a successful dribble.

30-day plan

Over the next month, the goal is to successfully complete 50 dribble-and-finish drills with the weak foot. He should also aim to complete at least one 1v1 take-on using his weak foot in every match he plays.

90-day plan

By the end of three months, the player should be confident enough to attempt shots with his weak foot in matches. His decision-making in 2v1 situations should be consistently excellent, and he should show an improved ability to score goals himself in addition to creating them for others.

Video moments — frame-stamped evidence

EVERY OBSERVATION IS ANCHORED TO THE EXACT FRAME IT WAS SEEN AT

00:06
Excellent first touch and turn. Instantly eliminates the first defender and opens up the entire pitch.

00:08
Shows fantastic acceleration and maintains very close control while dribbling at top speed.

00:11
Superb vision and decision-making. Makes the unselfish and correct pass to set up a certain goal. The weight of the pass is perfect.

00:12
The direct result of his individual skill and intelligence is a goal for his team. A game-changing contribution.

Final summary

This player is a highly promising attacker with the raw tools to be a difference-maker. His blend of explosive pace, direct dribbling, and intelligent final-third play already places him at a pro academy level for his age. While this report is based on one outstanding moment, it showcases a foundation of exceptional talent. Focusing on developing his all-round game, particularly his weak foot and goalscoring, will be key to unlocking his considerable potential.

Scores are presented as developmental guidance based on the submitted video, not definitive scouting evaluations. ScoutMePlay provides independent feedback only. We do not represent players or contact clubs on your behalf.

How ScoutMePlay scores — methodology

Every report is built around the same four player-development pillars used across European Category-1 youth academies. This appendix explains how we evaluate, benchmark, and tier players — so any coach or scout receiving this PDF can understand the numbers.

ALIGNED WITH UEFA YOUTH-DEVELOPMENT PILLARS · NOT CERTIFIED OR ENDORSED BY UEFA

THE FOUR PILLARS

TECHNICAL	Skills with the ball — first touch, ball control, passing, dribbling, shooting, weak-foot use, 1v1.
TACTICAL	Decisions without the ball — positioning, off-ball movement, scanning, decision-making, timing of runs, game understanding.
PHYSICAL	Athletic foundation — acceleration, speed, balance, agility, intensity (90-minute), body control.
MENTAL	Habits and character — confidence, work rate, courage in duels, response to mistakes, competitive mindset, focus.

THE FOUR-TIER LADDER

Each sub-skill is scored 1-10 and placed into one of four tiers, calibrated to the player's age and position.

ELITE ACADEMY	Top-end Category-1 academies (La Masia, Clairefontaine, Cobham-level). Top 1-3% of an age group.
PRO ACADEMY	Strong regional or national pro-club academies. Trial-ready for serious competitive pathways. Top 10-15%.
STRONG CLUB	Higher-level competitive club football, talent centres, district selections. Top 30%.
STANDARD CLUB	Mainstream club football where most players develop. Baseline for organised youth football.

AGE BRACKETS

A 7/10 for first touch at U11 is not the same as a 7/10 at U17. Every score is calibrated against the typical milestone for the age bracket and position.

U11	Foundation — coordination, ball mastery, basic decision-making.
U13	Build phase — scanning habits, positional discipline, both-footed development.

U15	Performance phase — match impact, pressing intensity, tactical role clarity.
U17	Specialisation — position-specific excellence, physical maturity, mental resilience.
U19	Pre-professional — match management, leadership, consistency across 90 minutes.
U21	Professional threshold — high-performance habits, durability, decision quality at speed.

WHAT WE DON'T CLAIM

- We are not UEFA-certified. We align with the same pillars used in UEFA elite-youth coaching education — that's it.
- We don't publish childhood scores of professional players. Stylistic archetype comparisons describe style, not factual youth data.
- We don't guarantee selection, signing, or progression to any club or academy.
- Set-pieces from open play, off-camera defensive work, and goalkeeping moments are not assessable from outfield clips.

Methodology version 1.0 — last updated Feb 2026.
