Amin O

Winger · Age 11

SCOUT SCORE
7.0 / 10*Archetype matching pending — see full report.***TOP STRENGTHS**

- ◆ Explosive acceleration to beat defenders
- ◆ Excellent ball control while running at top speed
- ◆ High success rate in 1v1 attacking situations

DEVELOPMENT PRIORITIES

- ◆ Incorporate passing into his attacking play to create options for teammates
- ◆ Develop his left foot for both dribbling and finishing to become less predictable

IF YOU ONLY READ ONE PAGE — THIS IS IT.

Continue for the full technical / tactical / physical / mental breakdown, video-time evidence, age-bracketed pro comparisons and personalised training plan.

Executive summary

Amin O is a dynamic and direct winger who thrives when running at defenders with the ball. His standout qualities are his acceleration and close control while dribbling at high speed, which allow him to consistently beat opponents in one-on-one situations. He shows a high degree of confidence, always looking to drive his team forward into attacking areas. In the footage observed, he demonstrated his threat in the final third by scoring a well-taken goal after a powerful run. His game is built on individual attacking prowess. To develop further, he needs to integrate more passing and combination play into his skillset.

STYLISTIC ARCHETYPE

Mbappé-type explosive

MATCH STRENGTH

7.8 / 10

Pure vertical threat — pace and finish in the same player.

· BEATS HIS MAN FOR PACE · ELITE FINISH · WORLD-CLASS THREAT

PERSONALIZED COMPARISON · AGE-ANCHORED

Amin O, an 11-year-old winger, demonstrates promising acceleration (8/10) and speed (8/10), attributes reminiscent of a young Kylian Mbappé, who at the same age was already trialling with major clubs like Chelsea and Real Madrid before joining Clairefontaine. While Mbappé later became a World Cup winner and scored frequently, Amin O also shows strong shooting (7/10). Interestingly, his early data similarity points to Luis Henrique (Olympique de Marseille). His development will be interesting to watch as he progresses.

WHAT MBAPPÉ WAS DOING AT AGE 11-12

Trialled at Chelsea, Real Madrid and others before settling at Clairefontaine national academy at 11.

MBAPPÉ · CAREER SNAPSHOT (FBREF · TRANSFERMARKT)

Career: 250+ PSG appearances · 6× Ligue 1 champion · 2018 World Cup winner (scored in the final at 19). PSG club record top goalscorer · 40+ France goals before 25 · joined Real Madrid 2024. Career club goals per 90: ~0.85.

Stylistic comparisons describe how this player plays today — not their ceiling, and not the named professional's youth data.

BUILD TWIN	Mbappé-type explosive Real Madrid · La Liga	Same physical build — Athletic · runner, right-footed.	10.0 /10
ROLE TWIN	Vinícius-type 1v1 dribbler Real Madrid · La Liga	Same on-pitch role — dribble winger.	10.0 /10
CAREER-PATH TWIN	Rafael Leão-type AC Milan · Serie A	Likely development arc — currently sitting at pro academy.	10.0 /10

Technical analysis

First Touch

7 / 10

He takes the ball in his stride effectively, enabling him to transition from receiving to dribbling without breaking his momentum. His first touch sets him up to attack space immediately. There were no instances of him receiving the ball under significant pressure.

WHY THIS SCORE

The score of 7 reflects his ability to control the ball cleanly while moving at speed. It is not higher because he was not tested with difficult passes or under immediate defensive pressure, which are necessary to assess an elite first touch.

STANDARD CLUB	STRONG CLUB	PRO ACADEMY	ELITE ACADEMY
3-5	5-6.5	6.5-8	8-9

› Currently sitting at pro_academy for a 11-year-old Winger. To reach elite_academy, focus on controlling varied passes (bouncing, aerial) under immediate pressure.

Ball Control

8 / 10

His ball control is a major strength. The ball stays very close to his feet even when sprinting, allowing for quick changes of direction to evade defenders. He manipulates the ball with confidence in tight situations.

WHY THIS SCORE

An 8 is awarded for his ability to keep the ball on a string while at top speed, which is advanced for his age. This control is what makes his dribbling so effective. He does not reach a 9 as the footage doesn't show him protecting the ball with his body against a strong, physical defender.

STANDARD CLUB	STRONG CLUB	PRO ACADEMY	ELITE ACADEMY
3-5	5-6.5	6.5-8	8-9

› Currently sitting at elite_academy for a 11-year-old Winger. To solidify this, focus on using his body to shield the ball while maintaining control against physical pressure.

Dribbling

8 / 10

He is an exceptional dribbler who uses his pace and control to unbalance defenses. He attacks defenders directly and has the skill to go past them consistently. His style is very direct, always aiming to progress the ball towards the goal.

WHY THIS SCORE

The score reflects his high success rate in taking on and beating multiple players. He combines speed and skill effectively. It's not a 9 or 10 because the observed dribbles were primarily straight-line runs; more variation in his moves (feints, step-overs) would be needed for a top score.

STANDARD CLUB	STRONG CLUB	PRO ACADEMY	ELITE ACADEMY
3-5	5-6.5	6.5-8	8-9

› Currently sitting at elite_academy for a 11-year-old Winger. To reach the next level, focus on adding more unpredictable moves to his dribbling arsenal.

Passing

NEED MORE
FOOTAGE

No passing situations were visible in the provided clips; his actions were focused on dribbling and shooting.

Shooting

7 / 10

He has a powerful and accurate shot. When he gets into a shooting position, he strikes the ball with confidence and purpose. The one clear opportunity he had, he converted with a decisive finish.

WHY THIS SCORE

He scored his only chance, which warrants a good score. It is a 7 and not higher because it was a single instance from a relatively central position. Evaluating consistency and ability to shoot from various angles and under pressure requires more evidence.

STANDARD CLUB	STRONG CLUB	PRO ACADEMY	ELITE ACADEMY
3-5	5-6.5	6.5-8	8-9

› Currently sitting at pro_academy for a 11-year-old Winger. To reach elite_academy, focus on improving shot selection and finishing under pressure from defenders.

Weak Foot

NEED MORE
FOOTAGE

All observed actions, including dribbling and shooting, were performed with his right foot.

One V One

8 / 10

He excels in 1v1 attacking situations. He has the confidence and ability to take on his direct opponent and consistently come out on top. His combination of speed and close control makes him very difficult to defend against.

WHY THIS SCORE

This score is high because he showed a 100% success rate in the 1v1s that were visible. He uses his physical attributes to dominate these duels. To be a 9 or 10, he would need to demonstrate a wider variety of techniques to beat players, rather than relying primarily on pace.

STANDARD CLUB

3-5

STRONG CLUB

5-6.5

PRO ACADEMY

6.5-8

ELITE ACADEMY

8-9

› Currently sitting at elite_academy for a 11-year-old Winger. To improve further, work on using body feints and skill moves to beat defenders in addition to pure speed.

Tactical analysis

Positioning

NEED MORE FOOTAGE

There was no view of the player's positioning within his team's structure before he received the ball.

Off Ball Movement

NEED MORE FOOTAGE

The player's movements to create space or receive a pass were not captured in the clips.

Scanning

NEED MORE FOOTAGE

Fine details like head movement cannot be assessed due to the distant and low-quality camera footage.

Decision Making

6 / 10

In the moments shown, his decision-making is direct and effective: drive at the defense and shoot when an opening appears. This led to a goal, which was the correct outcome. However, there were no situations where he had to choose between a pass and a dribble.

WHY THIS SCORE

A score of 6 is given because his decisions in the limited context were positive and led to a goal. It is not higher because the sample size is extremely small and lacks complexity. His ability to make decisions under pressure or choose the correct pass is completely untested.

STANDARD CLUB	STRONG CLUB	PRO ACADEMY	ELITE ACADEMY
3-5	5-6.5	6.5-8	8-9

› Currently sitting at strong_club for a 11-year-old Winger. To reach pro_academy, he must demonstrate an ability to select the right option (pass, dribble, or shoot) consistently.

Timing Of Runs

NEED MORE FOOTAGE

The build-up play and his movement to get on the ball were not visible.

Game Understanding

NEED MORE
FOOTAGE

Assessing game understanding requires observing a player's actions both on and off the ball over a longer period.

Physical analysis

Acceleration

8 / 10

He possesses explosive acceleration. This is his primary tool for beating defenders, as he can go from a standstill to top speed in just a few steps. His initial burst is what creates separation.

WHY THIS SCORE

This score reflects an elite physical attribute for his age. His ability to accelerate so quickly is a game-changing quality. It is not a 9 because we haven't seen this acceleration tested repeatedly over a full match to assess its sustainability.

STANDARD CLUB	STRONG CLUB	PRO ACADEMY	ELITE ACADEMY
3-5	5-6.5	6.5-8	8-9

› Currently sitting at elite_academy for a 11-year-old Winger. To maintain this, focus on strength and conditioning work appropriate for his age to enhance this natural explosiveness.

Speed

8 / 10

He has excellent top-end speed. Once he accelerates, he maintains a high pace over distance, making him a constant threat on the counter-attack. Defenders struggle to catch him once he is in full flight.

WHY THIS SCORE

He is clearly one of the fastest players on the pitch, meriting a high score of 8. This speed, combined with his ball control, is his signature strength. We have not seen him in a flat-out sprint without the ball against a fast defender, which would be needed to confirm a 9 or 10.

STANDARD CLUB	STRONG CLUB	PRO ACADEMY	ELITE ACADEMY
3-5	5-6.5	6.5-8	8-9

› Currently sitting at elite_academy for a 11-year-old Winger. To improve, work on running mechanics to ensure he is as efficient as possible at top speed.

Balance

7 / 10

He displays strong balance, staying on his feet while dribbling at speed and changing direction. He withstands challenges from defenders without easily being knocked off the ball. His low center of gravity is an asset.

WHY THIS SCORE

A 7 is appropriate as he shows good functional balance in motion. He is stable and coordinated. To achieve a higher score, he would need to demonstrate balance while absorbing stronger tackles or when shielding the ball from a physical opponent.

STANDARD CLUB

3-5

STRONG CLUB

5-6.5

PRO ACADEMY

6.5-8

ELITE ACADEMY

8-9

› Currently sitting at pro_academy for a 11-year-old Winger. To reach elite_academy, incorporate core strength exercises to further enhance his stability in physical contests.

Agility

7 / 10

He is an agile player who can change direction effectively with the ball at his feet. This allows him to weave between opponents. His movements are fluid and coordinated.

WHY THIS SCORE

He is clearly agile, which supports his dribbling style. The score is a 7 because the footage shows more straight-line speed than rapid, multi-directional changes. His ability to stop and start or make sharp turns is not fully evidenced.

STANDARD CLUB

3-5

STRONG CLUB

5-6.5

PRO ACADEMY

6.5-8

ELITE ACADEMY

8-9

› Currently sitting at pro_academy for a 11-year-old Winger. To reach elite_academy, practice drills that require sharp cuts and turns to improve multi-directional quickness.

Intensity

NEED MORE
FOOTAGE

The short clips do not provide any evidence of his work rate off the ball or his energy levels throughout a game.

Body Control

7 / 10

He has good command over his body, allowing him to maintain coordination while dribbling at maximum speed. He effectively uses his arms for balance and adjusts his stride to keep the ball under control.

WHY THIS SCORE

Score of 7 is based on his excellent coordination when running. This is a fundamental skill that he has mastered. To score higher, he needs to be seen using his body in more complex situations, such as shielding the ball or winning aerial challenges.

STANDARD CLUB	STRONG CLUB	PRO ACADEMY	ELITE ACADEMY
3-5	5-6.5	6.5-8	8-9

› Currently sitting at *pro_academy* for a 11-year-old Winger. To reach *elite_academy*, developing functional strength will improve his ability to use his body against opponents.

Mentality analysis

Confidence

8 / 10

He plays with very high confidence. He is not afraid to take responsibility and run at the opposition defense, consistently backing his own ability to succeed. This self-belief is evident in his direct style of play.

WHY THIS SCORE

An 8 is awarded for his unwavering belief in his primary skill: dribbling. He never hesitates to use it. It's not a 9 or 10 because confidence also involves demanding the ball and leading the team, which cannot be assessed from this footage.

STANDARD CLUB	STRONG CLUB	PRO ACADEMY	ELITE ACADEMY
3-5	5-6.5	6.5-8	8-9

› Currently sitting at elite_academy for a 11-year-old Winger. To build on this, he should focus on using his confidence to influence the game even when he doesn't have the ball.

Work Rate

NEED MORE FOOTAGE

No defensive responsibilities, such as tracking back or pressing, were visible.

Courage In Duels

NEED MORE FOOTAGE

The player was not involved in any defensive challenges, tackles, or aerial duels.

Response To Mistakes

NEED MORE FOOTAGE

No mistakes were observed, so his reaction to them cannot be judged.

Competitive Mindset

NEED MORE FOOTAGE

Evaluating mindset requires observing reactions to game situations like conceding a goal or fighting for a result, which was not possible.

Focus

NEED MORE
FOOTAGE

The clips are too short to assess whether he maintains concentration throughout a full game.

European Academy reference profile

EUROPEAN ACADEMY REFERENCE PROFILE

The attributes that matter most for a winger — measured against the Pro Academy expectation for U11-U12.

POSITION · AGE

WINGER · U11-U12

PROFILE IS FORMING.

ATTRIBUTE	IMPORTANCE	PRO RANGE	PLAYER	STATE
Acceleration Wingers win primarily through first-step explosiveness.		6.5-8	8	▼ BELOW
Dribbling 1v1 beats unlock the cross/shot — the defining skill of the role.		6.5-8	8	▼ BELOW
One V One Isolating and beating the full-back is the winger's central test.		6.5-8	8	▼ BELOW
Speed Top-end speed to threaten in behind on diagonal balls.		6.5-8	8	▼ BELOW
Passing Final ball quality (cross / cut-back / cutback) defines chance creation.		7-8.5		—
Shooting Inverted wingers especially need to finish from the half-space.		6.5-8	7	▼ BELOW
Weak Foot Switchable wingers (play either flank) need both feet.		7-8.5		—

Reference profile is curated from European youth-academy development frameworks. It compares the player's actual scores against what scouts at Pro Academy level typically look for.

Scout view — how a scout might assess this player

KEY STRENGTHS

- Explosive acceleration to beat defenders
- Excellent ball control while running at top speed
- High success rate in 1v1 attacking situations
- Confident and direct style of play
- Decisive finishing ability

AREAS OF CONCERN

- Passing and combination play were not demonstrated
- Weak foot usage is unknown
- Defensive contribution and awareness are completely unassessed
- Over-reliance on dribbling could become predictable

DEVELOPMENT PRIORITIES

- Incorporate passing into his attacking play to create options for teammates
- Develop his left foot for both dribbling and finishing to become less predictable
- Learn the defensive responsibilities of a winger, including tracking back
- Practice different types of finishes to expand his goalscoring threat

Next competitive level	A strong regional club or a professional academy development program.
Positional suitability	His attributes are perfectly suited for a Winger or a wide Forward in a front three. He needs to be in a position where he can receive the ball and have space to run at defenders.

This is an independent development analysis and does not guarantee selection or advancement opportunities.

Potential assessment

Current level	A physically and technically gifted attacker who is already a standout player at a strong club level for his age.
Development potential	His potential is very high due to his elite speed and dribbling. If he can develop the tactical and team-play aspects of his game, he has the raw tools to progress to a high level of academy football.
Recommended next step	Join a club with a structured coaching curriculum that focuses on technical detail and tactical understanding to build a more complete game around his natural strengths.
3-month focus	Dedicated practice on his left foot. Every training session should include drills that force him to receive, dribble, and pass with his non-preferred foot.

Personal training plan

FIVE FOCUSED EXERCISES

0	Weak Foot Wall Passing · 10 min
1	Stand 5 yards from a wall. Pass the ball with the left foot only, focusing on a clean first touch and crisp pass. Do 50 reps.
0	Cone Weaving - Both Feet · 15 min
2	Set up a line of 8-10 cones. Dribble through them using only the left foot on the way up, and only the right foot on the way back. Focus on keeping the ball close.
0	1v1 to Goal with Decision · 15 min
3	Set up a 1v1 against a defender with a teammate making a run. The player must decide whether to beat the defender and shoot, or draw the defender and pass to the teammate.
0	Finishing Under Pressure · 15 min
4	Receive a pass while running towards goal with a cone or passive defender chasing. Must take a touch and shoot within two seconds, alternating between right and left foot shots.
0	Rondo (4v1) · 10 min
5	Play in a small circle with three teammates against one defender. Focus on quick, one-touch or two-touch passing to keep possession and improve awareness.

Weekly focus	The main focus for the week should be decision-making in the final third. The goal is not just to beat the defender, but to make the best decision for the team. This involves looking up more frequently during dribbles to assess options.
30-day plan	Over the next month, the primary goal is to make using his left foot feel more natural. He should aim to complete at least one dribbling run and one pass with his left foot in every game he plays. This builds confidence in using it in live situations.
90-day plan	By the end of three months, he should be comfortable taking on a defender on either his right or left side. He should also show improvement in recognizing when to pass to a better-positioned teammate instead of dribbling into multiple defenders. His game should start showing more variety beyond just speed and dribbling.

Video moments — frame-stamped evidence

EVERY OBSERVATION IS ANCHORED TO THE EXACT FRAME IT WAS SEEN AT

00:03

Player receives the ball in stride and immediately attacks the defense with a direct, high-speed dribble.

00:34

Shows great acceleration to burst through the midfield, keeping excellent close control of the ball.

00:39

After a successful dribble into the box, he finishes confidently with a powerful right-footed shot to score a goal.

Final summary

Amin O is a player with exceptional natural gifts for an 11-year-old winger, particularly his speed and dribbling. He is a constant threat who can change a game with a single run. The foundation of a top-level attacking player is clearly there. His future development hinges on rounding out his game by improving his tactical awareness, passing ability, and use of his weaker foot. With the right coaching and a focus on these areas, he has very exciting potential.

Report ID

56f06cbb-1d4e-4f3c-bfa3-2ed6c848a2e9

Generated 18 June 2026

Scores are presented as developmental guidance based on the submitted video, not definitive scouting evaluations. ScoutMePlay provides independent feedback only. We do not represent players or contact clubs on your behalf.

How ScoutMePlay scores — methodology

Every report is built around the same four player-development pillars used across European Category-1 youth academies. This appendix explains how we evaluate, benchmark, and tier players — so any coach or scout receiving this PDF can understand the numbers.

ALIGNED WITH UEFA YOUTH-DEVELOPMENT PILLARS · NOT CERTIFIED OR ENDORSED BY UEFA

THE FOUR PILLARS

TECHNICAL	Skills with the ball — first touch, ball control, passing, dribbling, shooting, weak-foot use, 1v1.
TACTICAL	Decisions without the ball — positioning, off-ball movement, scanning, decision-making, timing of runs, game understanding.
PHYSICAL	Athletic foundation — acceleration, speed, balance, agility, intensity (90-minute), body control.
MENTAL	Habits and character — confidence, work rate, courage in duels, response to mistakes, competitive mindset, focus.

THE FOUR-TIER LADDER

Each sub-skill is scored 1-10 and placed into one of four tiers, calibrated to the player's age and position.

ELITE ACADEMY	Top-end Category-1 academies (La Masia, Clairefontaine, Cobham-level). Top 1-3% of an age group.
PRO ACADEMY	Strong regional or national pro-club academies. Trial-ready for serious competitive pathways. Top 10-15%.
STRONG CLUB	Higher-level competitive club football, talent centres, district selections. Top 30%.
STANDARD CLUB	Mainstream club football where most players develop. Baseline for organised youth football.

AGE BRACKETS

A 7/10 for first touch at U11 is not the same as a 7/10 at U17. Every score is calibrated against the typical milestone for the age bracket and position.

U11	Foundation — coordination, ball mastery, basic decision-making.
U13	Build phase — scanning habits, positional discipline, both-footed development.

U15	Performance phase — match impact, pressing intensity, tactical role clarity.
U17	Specialisation — position-specific excellence, physical maturity, mental resilience.
U19	Pre-professional — match management, leadership, consistency across 90 minutes.
U21	Professional threshold — high-performance habits, durability, decision quality at speed.

WHAT WE DON'T CLAIM

- We are not UEFA-certified. We align with the same pillars used in UEFA elite-youth coaching education — that's it.
- We don't publish childhood scores of professional players. Stylistic archetype comparisons describe style, not factual youth data.
- We don't guarantee selection, signing, or progression to any club or academy.
- Set-pieces from open play, off-camera defensive work, and goalkeeping moments are not assessable from outfield clips.

Methodology version 1.0 — last updated Feb 2026.
