

SCOUTMEPLAY · PREMIUM PLAYER REPORT

ALMIN

Attacking Midfielder · Age 10 · Right foot

Independent

OVERALL DEVELOPMENT	PLAYER TYPE
4 /10	Young, Reflective Player

EXECUTIVE SUMMARY

From this brief clip, it's clear Almin is an articulate young man who can talk about a football match with a good head on his shoulders.

Issued by SCOUTMEPLAY · Mentalkids · 11 June 2026

Independent player development analysis. Not a recruitment guarantee.

SECTION 01

Executive summary

From this brief clip, it's clear Almin is an articulate young man who can talk about a football match with a good head on his shoulders. After a loss, he doesn't seem upset but instead focuses on the positive achievements, like reaching the semi-final. He shows an awareness of the physical challenge his team faced against bigger, older opponents. It's important to be clear: this video shows none of his on-field football skills. We can't see his touch, passing, or how he moves in a game, so this report is based only on his positive attitude seen in this short conversation.

SECTION 02

Score overview

ATTRIBUTE	SCORE	NOTES
Technical	4 / 10	Composite technical ability
Tactical	4 / 10	Composite tactical intelligence
Physical	4 / 10	Composite physical attributes
Mentality	5 / 10	Composite mental attributes
Overall development	4 / 10	Holistic developmental indicator

How you compare

4

HOW YOU COMPARE

/10

STANDARD CLUB LEVEL

(BY DEFAULT DUE TO LACK OF EVIDENCE)

CALIBRATED FOR U11-U12

An accurate percentile cannot be assigned as no on-field skills were observed for this U11 attacking midfielder.

REALISTIC NEXT STEP

The only realistic next step is to provide footage of a game or competitive training session to establish a proper baseline.

TO REACH THE NEXT TIER

Demonstrating any on-field technical skill and tactical awareness would be the first step to moving beyond this initial assessment.

TIER LANDSCAPE

AGE-ANCHORED EVALUATION

U9-U11 · Technical Development Stage

Building the technical toolkit

LEVEL: BEGINNER

Just starting out — early ball contact & coordination.

HOW THIS EVALUATION WORKS

This player has been evaluated using age-appropriate and position-specific benchmarks. Professional player data is used as a style and long-term development reference, not as a direct comparison.

EVALUATED FOR THIS STAGE

- First touch under pressure
- Dribbling in tight spaces
- Passing fundamentals
- 1v1 confidence
- Creativity on the ball
- Weak-foot exposure
- Effort & re-press

DELIBERATELY NOT EVALUATED AT THIS STAGE

- Advanced tactical patterns (reserved for U12+)
- Speed of play under elite pressure (reserved for U13+)
- 90-minute intensity & physical peaks (reserved for U15+)
- Pro role discipline (reserved for U15+)

Technical analysis

First Touch	NEED MORE FOOTAGE
No game or training situations were visible; the player did not interact with a ball.	
Ball Control	NEED MORE FOOTAGE
The video does not contain any moments of the player handling or moving with a football.	
Dribbling	NEED MORE FOOTAGE
No dribbling situations were visible in the footage provided.	
Passing	NEED MORE FOOTAGE
No passing actions were shown in the video.	
Shooting	NEED MORE FOOTAGE
No shooting situations were visible in the footage.	
Weak Foot	NEED MORE FOOTAGE
No actions involving the player's non-preferred foot were observed.	
One V One	NEED MORE FOOTAGE
No 1v1 situations were present in the clip.	

Tactical analysis

Positioning	NEED MORE FOOTAGE
No match play was shown, so positional awareness cannot be judged.	
Off Ball Movement	NEED MORE FOOTAGE
The video does not show the player moving during a match to create space or receive a pass.	
Scanning	NEED MORE FOOTAGE
The video provides no opportunity to assess the player's awareness of his surroundings in a game.	
Decision Making	NEED MORE FOOTAGE
The clip does not show the player making any on-field choices with the ball.	
Timing Of Runs	NEED MORE FOOTAGE
No forward runs into space were visible in the clip.	
Game Understanding	NEED MORE FOOTAGE
The video does not provide any on-field evidence of his tactical comprehension.	

Physical analysis

Acceleration	NEED MORE FOOTAGE
No sprinting or quick changes of pace were shown.	
Speed	NEED MORE FOOTAGE
The video did not show the player running at maximum speed.	
Balance	NEED MORE FOOTAGE
No situations requiring balance, like tackling or shielding the ball, were observed.	
Agility	NEED MORE FOOTAGE
The clip only shows the player walking in a straight line.	
Intensity	NEED MORE FOOTAGE
No game or high-tempo training situations were shown.	
Body Control	NEED MORE FOOTAGE
No complex movements like jumping, turning, or shielding were observed.	

Mentality analysis

Confidence

NEED MORE FOOTAGE

The video does not show the player in situations that would test his confidence, like taking on a player or trying a difficult pass.

Work Rate

NEED MORE FOOTAGE

No match footage is available to assess how hard he works for the team.

Courage In Duels

NEED MORE FOOTAGE

No 50/50 challenges or defensive duels were shown.

Response To Mistakes

STRONG CLUB

6 / 10

He discusses having lost a match but does so with a positive frame of mind. He immediately mentions that the team fought well and reached the semi-final, showing he can process a negative result without getting discouraged. This is a very healthy attitude for a young player.

WHY THIS SCORE

Scored a 6 because he shows a mature ability to find positives after a loss, which is a great foundation. A higher score would require seeing how he reacts to his own individual errors during a game, like a misplaced pass or a missed chance.

STANDARD CLUB	STRONG CLUB	PRO ACADEMY	ELITE ACADEMY

	YOU ARE HERE		

› Currently sitting at strong_club for a 10-year-old Attacking Midfielder. To reach pro_academy, work on instantly trying to win the ball back after losing it.

Competitive Mindset

NEED MORE FOOTAGE

No in-game situations are shown to assess his will to win.

Focus

NEED MORE
FOOTAGE

No game was shown to observe his level of concentration over time.

European Academy reference profile

EUROPEAN ACADEMY REFERENCE PROFILE

The attributes that matter most for a attacking midfielder — measured against the Pro Academy expectation for U11-U12.

POSITION · AGE
**ATTACKING
MIDFIELDER ·
U11-U12**
PROFILE IS FORMING.

ATTRIBUTE	IMPORTANCE	PRO RANGE	PLAYE R	STATE
Decision Making AMs make 50+ decisions per match in the most congested area of the pitch.		7-8.5		
Scanning Top AMs see the picture before receiving — pockets between lines are the key habit.		7-8.5		
Passing Final pass quality (weight, disguise, timing) separates AMs at every level.		7-8.5		
First Touch Receiving in tight spaces under pressure — non-negotiable for the role.		6.5-8		
Off Ball Movement Finding pockets and timing arrivals is half the AM's job.		7-8.5		
Dribbling Beating one defender unlocks the next phase of attack.		6.5-8		
Shooting End product from the edge of the box — quality strike is expected at Pro Academy level.		6.5-8		

Reference profile is curated from European youth-academy development frameworks. It compares the player's actual scores against what scouts at Pro Academy level typically look for.

Scout view — how a scout might assess this player

KEY STRENGTHS

- Shows a positive and resilient mindset after a loss.
- Can reflect on a game and articulate his thoughts clearly.
- Appears to have a good attitude, focusing on team achievements.

AREAS OF CONCERN

- Complete inability to assess any technical, tactical, or physical skills from this video.
- No evidence of how he performs under pressure or interacts with teammates on the pitch.

DEVELOPMENT PRIORITIES

- Provide footage of game situations to allow for a proper evaluation.
- General focus for his age: Ball mastery - getting as many touches as possible.
- General focus for his age: Playing small-sided games to improve decision-making.
- General focus for his age: Having fun with the sport to build a long-term passion.

Next competitive level	Cannot be determined from this footage.
Positional suitability	Cannot be determined from this footage.

This is an independent development analysis and does not guarantee selection or advancement opportunities.

Potential assessment

Current level	Impossible to determine without seeing him play football.
Development potential	His positive attitude is a fantastic starting point for any young athlete. If he combines this good mindset with hard work on his skills, he'll give himself the best chance to develop. His on-field potential is currently unknown.
Recommended next step	The most important next step is to get some video of him in a game. Even a 5-10 minute clip from a small-sided game would tell us a thousand times more about him as a player.
3-month focus	Purely on fundamentals. Spend time every day just getting comfortable with the ball at your feet, using both feet, and passing against a wall.

Personal training plan

FIVE FOCUSED EXERCISES

0	Ball Mastery Foundations · 10 min
1	In a small square, practice toe-taps, inside-outside touches with both feet, and rollovers. Focus on keeping the head up as much as possible.
0	Wall Passing · 10 min
2	Pass against a wall, focusing on a clean first touch to control the rebound and a firm second touch to pass. Use both right and left feet equally.
0	Cone Weaving · 10 min
3	Set up a line of 5-6 cones and dribble through them using only your right foot, then only your left foot. This builds close control and confidence on both sides.
0	1v1 to Goal · 15 min
4	With a friend or parent acting as a defender, try to dribble past them and take a shot. This makes practice fun and game-realistic.
0	Juggling · 5-10 min
5	Simply try to beat your juggling record every day. It's the best way to develop a feel for the ball.

Weekly focus	For a player your age, the focus should be simple: touch the ball as much as possible and have fun. Try to do 20-30 minutes of individual ball work 3-4 times a week on top of your team training. Don't worry about complex tactics, just get comfortable with the ball being your best friend.
30-day plan	Over the next month, set a goal to become much more comfortable using your left foot. In your individual practice, try to do every drill with your left foot first. It will feel awkward, but it's the fastest way to become a two-footed player.
90-day plan	By the end of three months, your goal should be to feel confident receiving a pass under a bit of pressure and being able to dribble with your head up more often. This comes from thousands of repetitions in your practice. Keep track of your juggling score and try to double it in 90 days.

Video moments — frame-stamped evidence

EVERY OBSERVATION IS ANCHORED TO THE EXACT FRAME IT WAS SEEN AT

00:02

Player discusses the result of a recent game with the person filming.

00:05

Shows a positive mindset by immediately highlighting that his team reached the semi-final after a loss.

00:09

He describes the opponents as being big and older, showing an awareness of why the game might have been difficult.

Final summary

Almin, it's great to see you can talk about the game so well and keep your head up after a tough match. That positive attitude is something that coaches love to see and is the most important tool you have for getting better. This video didn't show us how you play, so we can't talk about your skills on the pitch yet. Keep working hard, keep enjoying the game, and we look forward to seeing some clips of you in action soon!

Generated 11 June 2026

Scores are presented as developmental guidance based on the submitted video, not definitive scouting evaluations. ScoutMePlay provides independent feedback only. We do not represent players or contact clubs on your behalf.

How ScoutMePlay scores — methodology

Every report is built around the same four player-development pillars used across European Category-1 youth academies. This appendix explains how we evaluate, benchmark, and tier players — so any coach or scout receiving this PDF can understand the numbers.

ALIGNED WITH UEFA YOUTH-DEVELOPMENT PILLARS · NOT CERTIFIED OR ENDORSED BY UEFA

THE FOUR PILLARS

TECHNICAL	Skills with the ball — first touch, ball control, passing, dribbling, shooting, weak-foot use, 1v1.
TACTICAL	Decisions without the ball — positioning, off-ball movement, scanning, decision-making, timing of runs, game understanding.
PHYSICAL	Athletic foundation — acceleration, speed, balance, agility, intensity (90-minute), body control.
MENTAL	Habits and character — confidence, work rate, courage in duels, response to mistakes, competitive mindset, focus.

THE FOUR-TIER LADDER

Each sub-skill is scored 1-10 and placed into one of four tiers, calibrated to the player's age and position.

ELITE ACADEMY	Top-end Category-1 academies (La Masia, Clairefontaine, Cobham-level). Top 1-3% of an age group.
PRO ACADEMY	Strong regional or national pro-club academies. Trial-ready for serious competitive pathways. Top 10-15%.
STRONG CLUB	Higher-level competitive club football, talent centres, district selections. Top 30%.
STANDARD CLUB	Mainstream club football where most players develop. Baseline for organised youth football.

AGE BRACKETS

A 7/10 for first touch at U11 is not the same as a 7/10 at U17. Every score is calibrated against the typical milestone for the age bracket and position.

U11	Foundation — coordination, ball mastery, basic decision-making.
U13	Build phase — scanning habits, positional discipline, both-footed development.

U15	Performance phase — match impact, pressing intensity, tactical role clarity.
U17	Specialisation — position-specific excellence, physical maturity, mental resilience.
U19	Pre-professional — match management, leadership, consistency across 90 minutes.
U21	Professional threshold — high-performance habits, durability, decision quality at speed.

WHAT WE DON'T CLAIM

- We are not UEFA-certified. We align with the same pillars used in UEFA elite-youth coaching education — that's it.
- We don't publish childhood scores of professional players. Stylistic archetype comparisons describe style, not factual youth data.
- We don't guarantee selection, signing, or progression to any club or academy.
- Set-pieces from open play, off-camera defensive work, and goalkeeping moments are not assessable from outfield clips.

Methodology version 1.0 — last updated Feb 2026.
