Executive summary

Almin is a natural goalscorer who lives to attack defenders and finish chances. He demonstrates exceptional confidence and skill in one-on-one situations, consistently beating both outfield players and goalkeepers. His primary strengths are his powerful, accurate shooting with his right foot and his ability to maintain close control while dribbling at speed. He has a strong, balanced frame for his age, which he uses to shield the ball effectively. In every clip, he is the focal point of the attack, driving directly at the goal with a single-minded purpose to score. His composure in the penalty area is advanced for an 11-year-old.

Technical analysis

First Touch

7 / 10

His first touch is generally solid, allowing him to transition immediately into a dribble. On one occasion with a high ball, the touch was slightly heavy, but he recovered possession instantly. In all other instances, he takes the ball in stride cleanly to set up his next action, which is always an aggressive move towards goal.

WHY THIS SCORE

The score is a 7 because while his first touch is effective and enables his attacking style, it is not yet consistently perfect. The one slightly loose touch on a more difficult ball shows there is room for refinement to reach an elite level of consistency. However, his ability to immediately correct and continue the attack is a major positive.

› Currently sitting at pro_academy for an 11-year-old Striker. To reach elite_academy, focus on perfecting control of bouncing and aerial balls.

Ball Control

9 / 10

He possesses outstanding close control, keeping the ball on a string even when running at full speed and navigating through multiple defenders. The ball never gets far from his feet, which allows him to make quick changes of direction and evade tackles in tight spaces. His control is a fundamental part of his goalscoring success.

WHY THIS SCORE

This is a 9 because his ball control is clearly his most dominant technical skill and at an elite level for his age. He manipulates the ball effortlessly in the most dangerous areas of the pitch. He does this repeatedly against different defenders and in different situations, proving it's a consistent, high-level attribute.

STANDARD CLUB	STRONG CLUB	PRO ACADEMY	ELITE ACADEMY

› Currently sitting at elite_academy for an 11-year-old Striker. To maintain this, continue practicing high-speed dribbling through cone drills that simulate defenders.

Dribbling

9 / 10

Almin is a fearless and effective dribbler. He actively seeks out one-on-one situations and has the skill and speed to beat opponents consistently. He uses a combination of raw pace, feints, and quick footwork to unbalance defenders before accelerating past them. His dribbling is purposeful, always aimed at creating a shooting opportunity.

WHY THIS SCORE

A score of 9 is given because his dribbling is both spectacular and effective; it directly leads to goals. He shows variety in how he beats players—sometimes with skill, sometimes with pace and power. This makes him unpredictable and a constant threat, which is the hallmark of an elite young attacker.

Passing

NEED MORE
FOOTAGE

No passing situations were visible in the footage; every sequence ended with a shot.

Shooting

9 / 10

His shooting is clinical, powerful, and accurate. He scored five goals in this short clip, showcasing a variety of finishes. He can strike the ball with force from the edge of the box and also has the composure to place it past the keeper in close-range situations. Every shot is taken with conviction and finds the target.

WHY THIS SCORE

He scores a 9 because of the sheer volume and quality of his finishing. He demonstrates he can score in multiple ways—power, placement, and under pressure. This consistency and killer instinct in front of goal is at an elite level for his age group.

STANDARD CLUB	STRONG CLUB	PRO ACADEMY	ELITE ACADEMY

NEED MORE
FOOTAGE

One V One

9 / 10

He is dominant in one-v-one situations. Against defenders, he uses his speed and skill to create separation consistently. Against the goalkeeper, he shows exceptional composure, either by rounding them or finishing early with precision. He never panics and backs his ability to win the duel every time.

WHY THIS SCORE

A score of 9 is warranted because he is undefeated in the 1v1 situations shown. His success rate is 100% in this clip. He displays multiple solutions to winning these duels—skill, pace, and composure—which marks him as an elite player in this category for his age.

STANDARD CLUB	STRONG CLUB	PRO ACADEMY	ELITE ACADEMY
3-5	5-6.5	6.5-8	8-9

› Currently sitting at elite_academy for an 11-year-old Striker. To maintain this edge, he should practice 1v1s from different angles and starting positions.

Tactical analysis

Positioning

7 / 10

He consistently occupies the central attacking channel, which is exactly where a number 9 needs to be to be effective. He is always available as an outlet for his team to get the ball into a dangerous area. His positioning naturally puts him in places where he can immediately threaten the goal upon receiving the ball.

WHY THIS SCORE

He scores a 7 because his positioning is effective and suits his role perfectly, but the highlight reel format prevents a full assessment of his defensive positioning or his movement to link play. What is visible is very good and shows a strong instinct for where the goal is.

STANDARD CLUB	STRONG CLUB	PRO ACADEMY	ELITE ACADEMY
3-5	5-6.5	6.5-8	8-9

› Currently sitting at pro_academy for an 11-year-old Striker. To reach elite_academy, he needs to show in a full match that he understands how to position himself relative to teammates and opponents during all phases of play.

Off Ball Movement

NEED MORE
FOOTAGE

The clips begin just as he receives the ball, so his movement to get into that position is not visible.

Scanning

NEED MORE
FOOTAGE

There are no clear moments where he can be seen looking over his shoulder to assess space or defender positions.

Decision Making

8 / 10

In the attacking third, his decision-making is quick, decisive, and consistently correct. When he sees a path to goal, he takes it. When he has a sight of the net, he shoots. He does not hesitate, which is a key trait for a striker. The only unknown is his decision-making when a pass is the better option.

WHY THIS SCORE

He gets an 8 because every attacking decision he makes in the video leads to a goal. This is exceptional. The score is not a 9 or 10 simply because the scope of decisions is limited to 'dribble' or 'shoot'. We have not seen him make decisions about passing, holding up play, or defensive actions.

Physical analysis

Acceleration

8 / 10

He possesses a sharp burst of pace over the first few yards. This allows him to separate from defenders after a skill move or a change of direction. His ability to go from a near-standstill to top speed quickly is a significant weapon in his attacking arsenal.

WHY THIS SCORE

This is an 8 because his acceleration is a clear strength that directly contributes to his success in 1v1s. He consistently creates separation over 5-10 yards. To be a 9 or 10, this would need to be truly explosive, leaving defenders for dead every single time, which he is very close to doing.

3-5	5-6.5	6.5-8	8-9

› Currently sitting at elite_academy for an 11-year-old Striker. To improve, incorporate explosive-start running drills and plyometrics.

Speed

8 / 10

Once he gets into his stride, he has very good top speed. He is able to maintain his pace while dribbling, pulling away from chasing defenders over longer distances. This was most evident on his runs that started from further out.

WHY THIS SCORE

He scores an 8 because he is clearly fast for his age group and uses it effectively. He isn't just quick; he's football-fast, meaning he can carry the ball at speed. The score is not higher because the footage doesn't show him in a maximal velocity footrace, which would be needed to confirm elite-level speed.

› Currently sitting at elite_academy for an 11-year-old Striker. Continued focus on proper running mechanics will ensure this remains a key strength as he grows.

Balance

9 / 10

His balance is superb. He stays on his feet through challenges and maintains his posture when changing direction at high speed. This core strength allows him to ride tackles that would put other players off-balance and enables him to get shots off while under pressure.

WHY THIS SCORE

This is a 9 because his balance is a standout physical attribute. He is very difficult to knock off the ball, which is rare and highly valuable for his age. His ability to absorb contact and continue his run is at a truly elite level for an 11-year-old.

Agility

8 / 10

He is very agile, able to change direction fluidly without losing speed or control. His cuts are sharp and they effectively wrong-foot defenders. This agility, combined with his acceleration, makes him a nightmare to mark in one-on-one situations.

WHY THIS SCORE

He scores an 8 because his agility is a key component of his dribbling style. His movements are fluid and sharp. To reach a 9, he would need to demonstrate this same agility when reacting to loose balls or in defensive situations, which are not present in this clip.

Intensity

Body Control

8 / 10

He has excellent control over his body movements. This is evident in the way he executes skill moves, stays balanced through contact, and sets his body to shoot. He is coordinated and uses his frame effectively to protect the ball.

WHY THIS SCORE

He gets an 8 as his body control is clearly advanced for his age, allowing him to perform complex technical actions smoothly. It's a key reason why his dribbling and balance are so strong. It's not a 9 because we haven't seen him use his body in aerial duels or more complex defensive movements.

Mentality analysis

Confidence

9 / 10

His confidence is sky-high. He demands the ball and is never afraid to take on defenders, regardless of how many there are. He shoots with the belief that every attempt will go in. This self-belief is a massive asset for a striker and is evident in his body language and decisive actions.

WHY THIS SCORE

This is a 9 because his confidence is a defining characteristic of his play. He plays without fear and imposes his will on the game. He's not just skilled; he knows he's skilled and uses that belief to his advantage. It's an elite mental trait for his age.

STANDARD CLUB	STRONG CLUB	PRO ACADEMY	ELITE ACADEMY

Work Rate

NEED MORE
FOOTAGE

Courage In Duels

8 / 10

He shows significant courage in attacking duels. He does not pull out of challenges and is willing to engage physically with defenders to protect the ball or get past them. He drives into crowded areas without hesitation.

WHY THIS SCORE

He scores an 8 because he actively embraces physical contact in attacking situations and wins his battles. He is brave on the ball. The score is not a 9 as we have not seen his courage in defensive tackles, 50/50 challenges, or when going for headers.

STANDARD CLUB	STRONG CLUB	PRO ACADEMY	ELITE ACADEMY

Competitive Mindset

8 / 10

He demonstrates a strong will to win and to score. Every action is driven by a desire to beat his opponent and find the back of the net. This single-mindedness and hunger for goals is the mark of a true competitor.

WHY THIS SCORE

He gets an 8 because his desire to dominate the attacking phase of the game is relentless and obvious. He plays to win his individual battles and to score goals. To score higher, this competitive drive would need to be seen across all aspects of the game, including tracking back and fighting for the team when not in possession.

He maintains high concentration in key moments. When dribbling through traffic or facing the goalkeeper, his focus is entirely on the task at hand. He does not get distracted and executes with precision, showing a level of mental clarity that is advanced for his age.

WHY THIS SCORE

He scores an 8 because his concentration during critical attacking moments is flawless. He tunes out the pressure and executes. Scout view — how a scout might assess this player

KEY STRENGTHS

- Clinical finishing with the right foot, showing both power and composure.
- Exceptional one-on-one dribbling ability to beat multiple defenders.
- High level of confidence and self-belief in his own ability to score.
- Excellent balance and body control to ride challenges and stay on his feet.
- Sharp acceleration to create separation from markers.

AREAS OF CONCERN

- No evidence of weak foot (left) usage; potentially one-footed.
- Passing and combination play are completely unobserved.
- Defensive contribution, work rate, and tactical discipline are unknown.

DEVELOPMENT PRIORITIES

- Intensive training on his left foot for both shooting and ball control.
- Incorporate drills that require passing and decision-making at the end of a dribble.
- Gain experience in a structured team to develop tactical understanding.
- Focus on off-the-ball movement to create space.

Next competitive level	Trial with a professional academy or a top-tier regional club.
Positional suitability	He is a pure number 9 (Striker). His skillset is perfectly suited to being the team's primary goal threat. He could also play as an inside forward coming from the right, but his instincts are best utilized centrally.

This is an independent development analysis and does not guarantee selection or advancement opportunities.

Potential assessment

Current level	He is currently performing at a very high level for his age group, showing technical and physical attributes that are common in top academy players.
Development potential	His potential is significant. With his natural goalscoring instincts and strong physical base, he has all the raw materials to develop into a top-class forward. His development will depend on rounding out his game (weak foot, passing) and adapting to more structured, competitive environments.
Recommended next step	Join the best possible structured football environment available, ideally a professional club's academy. He needs consistent coaching and to be challenged by playing with and against other high-level players.
3-month focus	Dedicate at least 30% of every training session exclusively to using his left foot. This includes simple wall passes, dribbling, and eventually, shooting. This is his number one priority.

Personal training plan

FIVE FOCUSED EXERCISES

0	Weak Foot Wall Ball · 15 min
1	Stand 2-3 yards from a wall. Pass the ball against the wall using only the left foot, focusing on controlling the rebound with the left foot as well. Vary the power and part of the foot used.
0	Dribble & Pass Gates · 15 min
2	Set up cones as 'gates'. Dribble at speed towards a gate, and just before passing through it, make a pass to a coach or partner. This forces a decision other than shooting.
0	1v1 to Two Goals · 20 min
3	In a 1v1, the attacker can score in one of two small goals placed wide apart. This forces the attacker to use agility and deception, and encourages use of the weaker foot if one goal is blocked off.
0	Reaction Finishing · 15 min
4	Coach holds the ball and shouts 'Left!' or 'Right!'. The player must adjust their body and finish with the correct foot on a quick pass from the coach. This builds weak-foot confidence under pressure.
0	Core Strength Circuit · 10 min
5	A circuit of planks, bird-dog, glute bridges, and light medicine ball twists. This will maintain his excellent balance and body control as he grows.

Weekly focus	The main focus each week is building competence and confidence in the left foot. Start with non-pressure drills and gradually add defenders and time pressure. Every successful action on the ball should be followed by the question, 'Could I have done that with my left?' The secondary focus is on recognizing the moment to pass instead of dribbling every time.
30-day plan	Over the next 30 days, the goal is for Almin to be comfortable receiving and dribbling short distances with his left foot in training. He should aim to take at least 10-15 shots with his left foot at the end of every practice, focusing on technique over power. He should also complete two core strength circuits per week.

90-day plan

By the end of 90 days, Almin should be able to confidently attempt a shot with his left foot in a game situation. He should be able to complete a 1-2 pass combination with his left foot. His decision-making in 'dribble vs. Pass' scenarios should show clear improvement, demonstrating that he is scanning for teammates as an option.

Video moments — frame-stamped evidence

EVERY OBSERVATION IS ANCHORED TO THE EXACT FRAME IT WAS SEEN AT

00:14
Excellent composure. Beats two defenders, draws the keeper, and calmly slots it home. Goal.

00:25
Fantastic strike. Cuts inside and fires a powerful, accurate shot from outside the box. Goal.

00:30
Clinical one-on-one. Beats his man with a skill move and finishes with precision. Goal.

00:39
Combination of power and skill. Shields the ball, drives forward, and unleashes an unstoppable shot. Goal.

00:48
Striker's instinct. Reacts fastest to a loose ball in the box for a tap-in. Goal.

Final summary

Almin is a gifted and confident young striker with a natural instinct for scoring goals. His technical skill on the ball, combined with his pace and balance, makes him a standout performer for his age. He has all the foundational tools of a top forward. His immediate challenge is to evolve from a great individual player into a great all-around attacker by developing his weaker foot and his ability to combine with teammates.

How ScoutMePlay scores — methodology

Every report is built around the same four player-development pillars used across European Category-1 youth academies. This appendix explains how we evaluate, benchmark, and tier players — so any coach or scout receiving this PDF can understand the numbers.

ALIGNED WITH UEFA YOUTH-DEVELOPMENT PILLARS · NOT CERTIFIED OR ENDORSED BY UEFA

THE FOUR PILLARS

TECHNICAL	Skills with the ball — first touch, ball control, passing, dribbling, shooting, weak-foot use, 1v1.
TACTICAL	Decisions without the ball — positioning, off-ball movement, scanning, decision-making, timing of runs, game understanding.
PHYSICAL	Athletic foundation — acceleration, speed, balance, agility, intensity (90-minute), body control.
MENTAL	Habits and character — confidence, work rate, courage in duels, response to mistakes, competitive mindset, focus.

THE FOUR-TIER LADDER

Each sub-skill is scored 1-10 and placed into one of four tiers, calibrated to the player's age and position.

ELITE ACADEMY	Top-end Category-1 academies (La Masia, Clairefontaine, Cobham-level). Top 1-3% of an age group.
PRO ACADEMY	Strong regional or national pro-club academies. Trial-ready for serious competitive pathways. Top 10-15%.
STRONG CLUB	Higher-level competitive club football, talent centres, district selections. Top 30%.
STANDARD CLUB	Mainstream club football where most players develop. Baseline for organised youth football.

AGE BRACKETS

A 7/10 for first touch at U11 is not the same as a 7/10 at U17. Every score is calibrated against the typical milestone for the age bracket and position.

U11	Foundation — coordination, ball mastery, basic decision-making.
U13	Build phase — scanning habits, positional discipline, both-footed development.

U15	Performance phase — match impact, pressing intensity, tactical role clarity.
U17	Specialisation — position-specific excellence, physical maturity, mental resilience.
U19	Pre-professional — match management, leadership, consistency across 90 minutes.
U21	Professional threshold — high-performance habits, durability, decision quality at speed.

WHAT WE DON'T CLAIM

- We are not UEFA-certified. We align with the same pillars used in UEFA elite-youth coaching education — that's it.
- We don't publish childhood scores of professional players. Stylistic archetype comparisons describe style, not factual youth data.
- We don't guarantee selection, signing, or progression to any club or academy.
- Set-pieces from open play, off-camera defensive work, and goalkeeping moments are not assessable from outfield clips.
