SECTION 01

Executive summary

Lukas is a smart, calm playmaker with a left foot that opens up defences. He reads the game very well for his age and is brave on the ball under pressure. He plays simple when needed and risky when it pays off. The biggest area to grow is his fitness — he fades in the second half. Build the legs and the rest is already at a high level.

PRO ACADEMY STANDARD

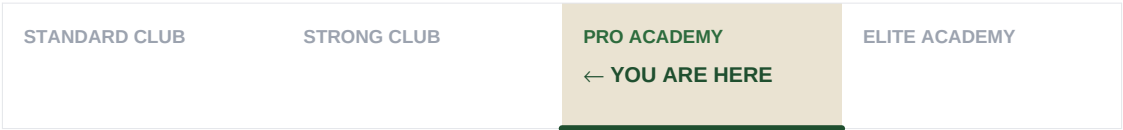

CALIBRATED FOR U13-U14

Currently in the top 10-15% of U14 attacking midfielders observed — particularly strong on passing range, scanning and competitive mindset.

REALISTIC NEXT STEP
Trial at a regional pro academy or a strong talent centre. Step up to U15 training with older players to push physical development.

TO REACH THE NEXT TIER
Match fitness for 90 minutes plus a reliable right foot — these two together would put him into the elite academy bracket within 12-18 months.

· SCANS CONSTANTLY · PRESS-RESISTANT · CROATIAN MAGIC

PERSONALIZED COMPARISON · AGE-ANCHORED

Lukas A., a 14-year-old attacking midfielder, shows exceptional scanning (9/10) and decision making (9/10). These attributes are reminiscent of Luka Modric at ages 13-14, then a small playmaker at NK Zadar. Modric often dropped deep to receive the ball as he wasn't tall enough to win duels higher up the pitch, eventually catching Dinamo Zagreb scouts' attention at youth tournaments. Continued development of Lukas's all-around game will be crucial.

WHAT MODRIC COMPOSER WAS DOING AT AGE 13-14

U13-U14 at NK Zadar — small playmaker, dropped deep to receive because he wasn't tall enough to win duels higher up. Caught Dinamo Zagreb scouts' attention at youth tournaments.

Stylistic comparisons describe how this player plays today — not their ceiling, and not the named professional's youth data.

Technical analysis

First Touch

PRO ACADEMY

8 / 10

Clean first touch that sets him up to play forward almost every time. Rare to see him let the ball bounce away.

WHY THIS SCORE

Scored 8 because his first touch consistently breaks pressure and sets up his next action — only loses control once or twice across the clip.

Ball Control

PRO ACADEMY

8 / 10

Keeps the ball close in tight space. Comfortable on both surfaces of his left foot.

WHY THIS SCORE

Scored 8 because he protects the ball through small spaces with consistent close control, only the weakest hand is his right foot.

STANDARD CLUB	STRONG CLUB	PRO ACADEMY	ELITE ACADEMY

Dribbling

PRO ACADEMY

7 / 10

Beats defenders with a feint and change of direction rather than pure pace. Effective in 1v1s.

WHY THIS SCORE

Scored 7 because he wins 1v1s through deception rather than explosiveness — limited variety against quicker defenders.

Passing

ELITE ACADEMY

9 / 10

His standout skill. Vision to find passes others miss, and the technique to deliver them.

WHY THIS SCORE

Scored 9 because he picks line-breaking passes that other 14-year-olds simply don't see, and his weight is consistently right.

Shooting

PRO ACADEMY

7 / 10

Strikes the ball cleanly with his left foot. Could be braver shooting from outside the box.

WHY THIS SCORE

Weak Foot

STANDARD CLUB

5 / 10

Right foot is rarely used. Needs daily work — even short passes and simple drills will make a big difference.

WHY THIS SCORE

One V One

PRO ACADEMY

7 / 10

Calm in 1v1 situations. Picks the right moment to go past or release the ball.

WHY THIS SCORE

Positioning

ELITE ACADEMY

9 / 10

Always finds the right pocket of space between defenders. Smart at finding angles for his teammates.

WHY THIS SCORE

Scored 9 because he consistently appears in the half-spaces where his team needs an out-ball — rare for his age.

Off Ball Movement

PRO ACADEMY

8 / 10

Moves to receive constantly. Could improve runs in behind the defence to add another threat.

WHY THIS SCORE

Scored 8 because he never stands still, but most of his movement is to receive, not to penetrate behind.

Acceleration

PRO ACADEMY

7 / 10

Scout view — how a scout might assess this player

KEY STRENGTHS

- Always looks around before he gets the ball
- Left foot can pick out any pass
- Stays calm under pressure
- Wants the ball in every situation

AREAS OF CONCERN

- Tires late in matches
- Right foot needs work
- Slow to react when team loses the ball

DEVELOPMENT PRIORITIES

- Build match fitness so he can press for 90 minutes
- Daily right-foot work — even 10 minutes a day
- Add runs in behind the defence to his game
- Quicker reaction when transitioning to defence

Next competitive level	Ready to step up to a stronger U15 team or an academy trial
Positional suitability	Best as a creative #10 right behind the striker. Could also play as an 8 in a 4-3-3 if he gets fitter.

This is an independent development analysis and does not guarantee selection or advancement opportunities.

Potential assessment

Current level	Already one of the better players in his age group at club level
Development potential	High ceiling. Technique and game intelligence are already at a level that's hard to teach. If fitness comes, the path is wide open.
Recommended next step	Play with older players at training to challenge his fitness and physical game
3-month focus	Fitness and right-foot development. Keep everything else ticking and grow these two areas.

Personal training plan

FIVE FOCUSED EXERCISES

0	Receive and turn · 15 min
1	Stand in tight space with a teammate or cone behind you. Maximum three touches — open your body, turn, pass, repeat. Builds confidence on the ball when defenders are close.
0	Right-foot passing wall · 15 min
2	10 passes against a wall with the right foot, then 10 with the left. Repeat 10 rounds. Simple and boring but it works.
0	Shuttle runs · 20 min
3	5 sets of 6 sprints between cones 10 meters apart, 30 second rest. Builds the late-game fitness that's missing right now.
0	Pass and move squares · 20 min
4	4 players in a 10x10 square. Pass, then move to a different corner. Builds scanning and movement together.
0	Shooting from the edge of the box · 20 min
5	Receive a pass, take one touch to set yourself, shoot with the left then the right foot. 10 reps each side.
Weekly focus	Mix one fitness session, one passing session, and one finishing session each week. Keep games in the rotation too — match minutes are still the best teacher.
30-day plan	First 30 days are about building habits. Daily right-foot work for 10 minutes — even at home with a ball against a wall. Two fitness sessions a week minimum. Track how you feel in the last 15 minutes of every match.
90-day plan	By 90 days, the right foot should be reliable for short passes and the legs should hold up for full matches. Add small-sided games with older players if possible — that's where the biggest jumps happen.

Video moments — frame-stamped evidence

EVERY OBSERVATION IS ANCHORED TO THE EXACT FRAME IT WAS SEEN AT

00:24
Great first touch on a tough ball — already checking his shoulder before it arrives.

01:12
Beats his man cleanly — fakes inside, goes outside, plays a perfect cut-back.

02:40
Should look around earlier here — gets caught with the ball and loses it.

03:55
Smart run in behind the defence — perfect timing between the two defenders.

05:18
Brilliant left-footed switch of play. Changes the whole shape of the attack.

07:02
Drops deep to help build-up — shows maturity in his game.

Final summary

Lukas is one of the more impressive players we've reviewed in his age group. The technique and game intelligence are already at a high level — what he sees and chooses to do with the ball is mature. Fitness is the next big step, alongside daily right-foot work. Keep doing what he's doing, add those two areas, and the path forward is wide open.

How ScoutMePlay scores — methodology

Every report is built around the same four player-development pillars used across European Category-1 youth academies. This appendix explains how we evaluate, benchmark, and tier players — so any coach or scout receiving this PDF can understand the numbers.

ALIGNED WITH UEFA YOUTH-DEVELOPMENT PILLARS · NOT CERTIFIED OR ENDORSED BY UEFA

THE FOUR PILLARS

TECHNICAL	Skills with the ball — first touch, ball control, passing, dribbling, shooting, weak-foot use, 1v1.
TACTICAL	Decisions without the ball — positioning, off-ball movement, scanning, decision-making, timing of runs, game understanding.
PHYSICAL	Athletic foundation — acceleration, speed, balance, agility, intensity (90-minute), body control.
MENTAL	Habits and character — confidence, work rate, courage in duels, response to mistakes, competitive mindset, focus.

THE FOUR-TIER LADDER

Each sub-skill is scored 1-10 and placed into one of four tiers, calibrated to the player's age and position.

ELITE ACADEMY	Top-end Category-1 academies (La Masia, Clairefontaine, Cobham-level). Top 1-3% of an age group.
PRO ACADEMY	Strong regional or national pro-club academies. Trial-ready for serious competitive pathways. Top 10-15%.
STRONG CLUB	Higher-level competitive club football, talent centres, district selections. Top 30%.
STANDARD CLUB	Mainstream club football where most players develop. Baseline for organised youth football.

AGE BRACKETS

A 7/10 for first touch at U11 is not the same as a 7/10 at U17. Every score is calibrated against the typical milestone for the age bracket and position.

U11	Foundation — coordination, ball mastery, basic decision-making.
U13	Build phase — scanning habits, positional discipline, both-footed development.

U15	Performance phase — match impact, pressing intensity, tactical role clarity.
U17	Specialisation — position-specific excellence, physical maturity, mental resilience.
U19	Pre-professional — match management, leadership, consistency across 90 minutes.
U21	Professional threshold — high-performance habits, durability, decision quality at speed.

WHAT WE DON'T CLAIM

- We are not UEFA-certified. We align with the same pillars used in UEFA elite-youth coaching education — that's it.
- We don't publish childhood scores of professional players. Stylistic archetype comparisons describe style, not factual youth data.
- We don't guarantee selection, signing, or progression to any club or academy.
- Set-pieces from open play, off-camera defensive work, and goalkeeping moments are not assessable from outfield clips.
